

Let the refurb begin!

We are thrilled to announce that our much-anticipated refurbishment project is officially set to begin on **Monday, 7 July!** This is a big step towards creating a more modern, comfortable & inspiring space for all of you.

What to expect

Temporary Changes

There will be minor disruptions, but we're committed to ensuring we have as many workout options available to you as possible. The entire project has been staggered to enable this & we will have a full timeline for you to view soon, including what areas will be inaccessible and when.

Upgraded New Facilities

When the refurbishments are complete, you'll enjoy modern facilities, a fresh new look & feel, top quality equipment, a cutting-edge cycle studio, plus 24 hour access.

Studio 1 - where will our classes go?

As Studio 1 undergoes renovation, we will be conducting all classes in various locations including Studio 2, our Functional Zone & club function rooms. To ensure we continue offering a variety of classes, we'll be adjusting the timetable to make the best use of these spaces until Studio 1 is ready for use (approximately 21 July). **Our app will show what classes are being held & where, so please follow this closely from 7 July.**

Male Change Rooms - where do we go?

While our male change room is getting a face lift, our female change room will become one shared space for all genders. This will be effective from **Monday 14 July**. Once the male amenities are completed, work in the female amenities will commence & access will be swapped. A total of 6 weeks is estimated for this work. During this period we ask that you remain clothed and respectful while in this shared space. Where possible, shower at home & use our hall lockers to keep change room access to essential use only. Revesby Workers' Club toilets will be available during club hours: 9am – 6am.

What's happening first?

The first areas to be impacted will be Group Ex Studio 1 & our male change rooms. These are the first stages of our upgrades & while there will be some temporary changes, we are confident that the final results will be well worth the minor disruptions.

Your Patience is Appreciated! We know change can bring a little inconvenience & nervousness, but we're confident that this refurbishment will improve your overall experience well into the future. Thank you for your understanding & continued support as we work to create a better space for you all. Stay tuned for further updates as the project progresses.
